

TG-1 Toe Grounder

The TG-1 toe grounder from Bennett & Bennett is perfect for a wide variety of women's, heeled shoes. Constructed from durable materials and featuring a comfortable and secure elastic closure. The TG-1 provides protection for staff on the move. These toe grounders connect the person wearing them to ground via a proper floor mat or flooring material. Wearing the conductive ribbon inside the shoe or sock assures proper electrical contact with the user. A rugged 1 meg ohm molded resistor is standard. Toe grounders are worn on both feet to provide consistent grounding while in motion.

Meets or exceeds requirements of ANSI ESD-S20.20-2007 Table 2 Method 2.

Specifications:

- **Conductive Rubber Strap:**
Reinforced black conductive rubber outside.
White, non-marking insulative rubber inside.
- **Conductive Ribbon Tab:**
Multi-strand, carbon suffused nylon on polyester, 6000 ohms/inch
- **Adjustment Mechanism:**
Black Elastic
- **Resistor:** 1 meg ohm, ¼ watt, molded
- **Charge Decay:** Less than 2 seconds for 5000 volts to technical zero.
- **Compliance:** Meets or exceeds all US and European requirements.

Standard Part Number:

Part Number

TG-1

Description

Toe Grounder with 1meg molded resistor
