## Instructions

8812 Series ESD Smocks with Collars are fabricated from lightweight (2.2 oz per square yard) 97% polyester and 3% carbon fabric that shields ESD susceptible devices from electrostatic charges. They are available in black, blue, burgundy, and white in a standard three-pocket design.

- Lightweight breathable fabric offers excellent operator comfort
- Carbon material shields ESD susceptible items from charges on operator's clothing
- Meets ANSI/ESD S20.20-2014 and IEC 61340-5-1.

## Cleaning Instructions

Machine Wash Warm. Do Not Bleach. Do Not Add Detergent or Softener. Cool Tumble Dry or Hang. Remove Promptly.

Surfactants such as laundry detergent and fabric softeners can chemically break down the black carbon static shielding fabric woven into ESD smocks and lab coats. Do not add them to wash.

## Grounding Instructions

Ground the 8812 Series Knitted Cuff Style with a wrist strap worn concealed on the inside of the left knitted cuff that is connected with a grounding lining running down the left sleeve and torso into the left hip snap to which a coil cord can connect.

Ground the 8812 Series Snap Cuff Style with a wrist strap worn on the outside of the jacket connected by coil cord to a common point ground.
