

Size Chart

8812 Series ESD V-Necks are fabricated from lightweight (2.2 oz per square yard) 88% polyester and 12% carbon fabric that shields ESD susceptible devices from electrostatic charges. They are available in black, blue, burgundy, and white in a standard three-pocket design.

- Lightweight breathable fabric offers excellent operator comfort
- Carbon material shields ESD susceptible items from charges on operator's clothing
- Meets ANSI/ESD S20.20-2014 and IEC 61340-5-1

Lightweight ESD V-Necks				
Size	Back Length	Shoulder Width	Snap Sleeve Length	Knitted Sleeve Length
